

Legislature Called To Meet December 28;
Graves Requests Session; Road Bond Issue
Will Be Submitted To Voters Of The State

Birmingham, Ala., Nov. 29.—Governor W. W. Brandon has called an extra session of the Alabama legislature for Tuesday, December 28, to submit a \$25,000,000 bond issue for good roads to the people of Alabama and also included in his call a proposal for the legislature to levy a two cent gasoline tax.

The call of Governor Brandon was announced here by Recording Secretary Heustess to Governor Brandon. Mr. Heustess in announcing the call gave out copies of two letters one from Governor-elect Colonel Graves asking for the call and one from Governor Brandon announcing the call as well as the official proclamation for the call.

Governor Graves in his letter to Governor Brandon asking for an extra session points out that the funds from the \$25,000,000 bond issue will be exhausted when present road contracts are completed, and further points out that it is imperative that Alabama continue construction of roads. He asks in his letter that the governor include the two cent gasoline tax proposal to insure the payment of the interest on the proposed new \$25,000,000 bond issue and to provide a sinking fund for the retirement of the new issue. This two cent tax is to be in addition to the two cent tax now levied which is shared in equally by the 67 counties of Alabama.

Governor Brandon in his letter to Governor Graves says he is only including in his call those subjects suggested by Governor-elect Graves and he also takes occasion to assure Governor-elect Graves of his full co-operation in the administering of the affairs of the state.

The proclamation issued by Governor Brandon follows: "Whereas, in my opinion an emergency, such as is contemplated by Section 122, Constitution 1901, exists requiring the action of the Legislature of Alabama concerning matters hereinafter specifically mentioned:

"Now, therefore, I, William W. Brandon, governor of the state of Alabama do hereby call into extraordinary session the legislature of Alabama, elected on November 2, 1926, such extraordinary session of the legislature to convene at the capitol in the senate chamber and in the hall of the house of representatives on Tuesday, the 28th day of December, 1926, at 12 o'clock, noon, and I do hereby designate the following subjects and matters as those concerning the action of the legislature deemed necessary:

"(1) To submit to a vote of the electorate of Alabama a constitutional amendment authorizing the issuance and sale by the state of Alabama of bonds not to exceed in value twenty-five million (\$25,000,000) dollars for the purpose of constructing and maintaining roads, highways and bridges in the state, said bonds to be in addition to those heretofore authorized for such purposes.

"(2) To enact a law levying a tax of two cents per gallon on gasoline or other substances or substitutes for the same kind as the motive power of self-propelled vehicles of all kinds, said tax to be in addition to that already levied upon such substances.

"In witness whereof, I, William W. Brandon, have caused this proclamation to be issued on this 27th day of November, in the year of our Lord One thousand nine hundred and twenty-six and have caused the same to be attested by the secretary of state, under the great seal of the state.

"WILLIAM W. BRANDON, Governor."

Our stock of Window Glass is complete. Cold, rainy weather is coming. BONNEAU-YETTER HDWE. CO.

Mr. and Mrs. I. A. Hutchison and children, of Panama City, Fla., spent Thanksgiving with relatives at Elba.

Teachers Will Hold
A Group Meeting
At Double Heads

A Group Teachers Meeting will be held at Double Heads on Friday, December 3rd, from 1 to 4 p. m. The following program will be rendered:

Primary Reading—Miss Sadie Wilson. Silent Reading—Miss Mary Lee. The Audience Situation in Oral Reading—Miss Reida Johnson. Physical Education and the Health Crusade—Mrs. Mae Bryan. Use of the Sixth Grade Text Books—Mr. Grady Etheridge. Schedules for the 1 and 2 Teacher Schools—Miss Annie L. Phillips. Reading Test Results and Remedial Measures. General Discussion.

The meeting will be presided over by Miss Emora Farris, County Superintendent. The following teachers will be present: Double Heads, Misses Annie Lee and Mamie Phillips; Perdue, Miss Sadie Wilson; Evergreen, Mr. Felix Hagan and Mrs. J. M. Jernigan; Lee, Misses Mary Lee and Reida Johnson; Zion Chapel, Mr. J. M. Roberts and Miss Kate Cotton; Zoar, Miss Dixie Lee; Bluff Springs, Miss Eunice Hancock; Newbia, Mrs. Mae Bryan; Antioch, Miss Ida Hudson; Wise Springs, Miss Eunice Hancock; Newbia, Mrs. Mae Bryan; Antioch, Miss Ida Hudson; Wise Springs, Miss Eunice Hancock; Newbia, Mrs. Mae Bryan; Antioch, Miss Ida Hudson; Wise Springs, Miss Eunice Hancock.

Officials for the game were: Orr, Newton College Coach (Referee); Woodham, Ozark Coach, umpire; "Bip" Rawls (Birmingham-Southern) head linesman.

MADDOX—REEVES
A quiet but beautiful home wedding occurred Wednesday afternoon at 4 o'clock when Miss Mae Reeves became the bride of Mr. Mike Maddox, of New Brockton. Rev. J. S. Johnson, pastor of the Baptist church of New Brockton performing the impressive ceremony in the presence of the immediate family and a few close friends.

Mrs. Maddox is the daughter of Mrs. L. J. Reeves and is an attractive young woman of charming personality. She is a graduate of the Coffee County High School at Enterprise and for several months has held a responsible position in Elba. Mr. Maddox is a popular young man of New Brockton and is an employee of the C. C. Railroad.

Immediately after the ceremony Mr. and Mrs. Maddox left for a short wedding journey to Birmingham and other points where they will be at home in Elba—Enterprise Ledger.

Rhoades School News
Well, here we are again. If you don't boost your school, no one will boost for you. Three one will boost for you. Three Wednesday afternoon quite an interesting Thanksgiving program was given by the intermediate grades. We were real glad to have a number of the parents present.

The community boys gave our team some good practice Wednesday afternoon. They played well considering their lack of practice. The score was 16 to 0 in favor of Rhoades team.

Mrs. A. B. Wise, Misses Gladis Wise and Virgie Shelton spent Thanksgiving with Mrs. N. O. Benton of Opp.

Miss Sue Benton spent the week end with Miss Gladis Wise.

Mrs. C. M. Coon and daughter, Clemmie, spent Thanksgiving with Mrs. Coon's father, Mr. J. M. Rhoades.

Mrs. Harry Clark, of Ozark, spent Thanksgiving with her sister, Mrs. O. S. Rhoades.

Misses Mary Lou and Colla Clark were home for the holidays.

Mrs. Robbie Helms, of Birmingham, is here on a visit to her sister, Mrs. Aud Clark.

Misses Gladis Wise and Virgie Shelton were hostesses at a possum hunt Thursday night. Those present were: Messrs. Jack Clark, Hilliard Powell, Aubrey Sims, Bud Parrish, Taylor and Robert Wise and Misses Mattie Lee Springfellow, Mary Lou Clark, Sue Benton and Minnie B. Rhoades. Mrs. A. B. Wise acted as chaperone. We caught everything but possums.

Yours till "Niagara Falls." Aunt Het.

BOARDS WANTED.
I will take a few boarders, and will also do embroidery work.

Mrs. M. R. Golden, West Elba.

Mrs. Dave Yates and son, Kimble, have returned to their home in Elba after a delightful visit to Mrs. W. H. Haire—Troy Messenger.

New Brockton
News
By Miss Alpha Moore.

Dr. and Mrs. H. G. Huey and children of Homerville, Ga., Mrs. Gordon Prescott and children of Elba, Mr. and Mrs. C. Dawkins and children, surprised Mr. and Mrs. A. A. Owens with a delicious Turkey dinner Thanksgiving day.

Mr. and Mrs. Herbert Bryson and their little daughter and Mrs. F. M. Bryson spent Thanksgiving in Montgomery as the guest of relatives.

Mr. and Mrs. Grover Folsom of Pensacola, Fla., spent Saturday night with Mr. and Mrs. Jesse Folsom.

Mr. W. A. Rainey is up and doing nicely after being ill for several days with pneumonia. Miss Nadine Enggram left last week for Waycross, Georgia to visit Mr. and Mrs. Ralph Enggram.

Mrs. Nelson and children left last week for their home in Birmingham after spending some time as the guest of Mr. and Mrs. Jim Enggram.

Miss Gussie Boyett spent several days last week in Pickard a strip of land about half mile long and four miles long. Occasional of homes in the path of the cyclone have been struck. One son had finished the meal and was on his way to work when the tornado struck the home. He was injured.

Many persons were slightly injured when the storm swept a strip of land about half mile long and four miles long. Occasional of homes in the path of the cyclone have been struck. One son had finished the meal and was on his way to work when the tornado struck the home. He was injured.

All of the country in the vicinity of the stricken district late today turned to relief work for many of the families having lost all their possessions in the brief passage of the gale. No attempt had been made to estimate the loss in buildings, homes, crops, cattle and foodstuff tonight. Zion church, historic throughout this section of Alabama, was destroyed.

There is no commodity or crop that can be grown in Coffee County as successfully as cream. The price fluctuates less than any other farm commodity known, because there is a world wide demand for dairy products and it requires one human laborer to handle 10 to 15 cows thereby eliminating overproduction. Of course country butter gets cheap, but this is because there is no way to standardize the product. Ten thousand home wives may all make good home butter, yet there will be ten thousand different kinds of butter and the markets for a product are built up around one kind and standard and quality of a given product.

Then the beauty part of dairying on a small scale is that it goes hand in hand with hope and poultry and cotton. While the milk from which ice cream has been skinned is an excellent poultry and hog feed. The increase from the herd in a few years will pay handsome dividends provided attention is given to building up the herd. There never has been a time that a real good milk cow would fail to bring a good price. They are always in demand. Dairying has everything to recommend it to the average farmer in Coffee County and we shall be glad to help anyone get started on a small scale in this profitable undertaking.

First—The good effort of sanitary living, that nature never throws away anything that she needs, and when nature calls on us to throw off waste from body in the form of urine and excreta. Second—it is at the same time calling to our common sense and decency to dispose of these waste matters in a manner that they will not get into our bodies again through the common agency of flies, animals, fowls, milk, water etc.

If you do not have the convenience of sewerage or running water in your house then the matter of disposal should be in a pit toilet which can be installed at your house for approximately \$4.00. I will be glad to come to your home any time or send pamphlet on this subject at your request.

I thank you.

Miss Mary Olive Carley came home from Hartford to spend the holidays with home folk.

Miss Annie Waters spent the week end in Montgomery visiting her sister, Mrs. O. S. Rainer.

Misses Henrietta Coston, Margaret Garrett, and Mrs. D. C. Marley spent last week end at Woman's College, Montgomery, Mrs. Marley visiting her daughter, Nan.

Three Alabamians Are
Among Victims of Disastrous Storm Last Friday

Winfield, Ala., Nov. 26.—3 persons are dead, one dying more than a score of homes destroyed and hundreds of head of cattle killed as the result of a tornado which struck one mile north of here early today. The dead:

Mrs. Della Langley, 45, Emma May Langley, 15, and Roy and Langley 12, all killed instantly and their bodies hurled 200 yards through the air. Another member of the family, Olan Langley, 21 was believed fatally injured.

The tornado swept the vicinity of Zion church, demolishing more than 20 homes and tearing barns, plank from plank the dairy business on a small scale. In fact the only real essential is to have a disposition to start. A couple hours each day devoted to this important sideline would bring in a cash monthly income of from \$25.00 to \$50.00 from cream sales.

Cream can be shipped sour to the creamery at Dothan or Montgomery and shipment need not be made more than twice each week. The express company makes a special low rate on the cream cans, returning the empty cans free of charge. With cotton seed meal selling for an unusual low price this season, it seems that there could be no better market for this home grown product than to feed it to dairy cows. 85 per cent of the fertilizer value of the meal is returned to the soil when fed to cattle, and there is no better cream and milk producer grown than cottonseed meal.

There is no commodity or crop that can be grown in Coffee County as successfully as cream. The price fluctuates less than any other farm commodity known, because there is a world wide demand for dairy products and it requires one human laborer to handle 10 to 15 cows thereby eliminating overproduction. Elba Territory Should Produce One Thousand
Pounds Butterfat Per Day For Market; Natural Advantages Here And Labor Available

By R. G. ARNOLD
Coffee County Farm Demonstration Agent

There seems to be the best opportunity for the farmers in the Elba territory to produce cream profitably of any section in Alabama. Bottom lands produce an abundance of various pasture grasses, and our soils are especially adapted to the growing of velvet beans, soy beans, cow peas and peanut hay, all of which feeds can be very profitably fed to cows for cream production. A hot separator constitutes the entire equipment necessary to begin the dairy business on a small scale. In fact the only real essential is to have a disposition to start. A couple hours each day devoted to this important sideline would bring in a cash monthly income of from \$25.00 to \$50.00 from cream sales.

Cream can be shipped sour to the creamery at Dothan or Montgomery and shipment need not be made more than twice each week. The express company makes a special low rate on the cream cans, returning the empty cans free of charge. With cotton seed meal selling for an unusual low price this season, it seems that there could be no better market for this home grown product than to feed it to dairy cows. 85 per cent of the fertilizer value of the meal is returned to the soil when fed to cattle, and there is no better cream and milk producer grown than cottonseed meal.

There is no commodity or crop that can be grown in Coffee County as successfully as cream. New Hope News.

The people of this community are busy picking peanuts and finishing gathering their crops.

School is progressing nicely, our enrollment is 135 and the attendance is good. Our teachers this year are: Principal, Miss Eunice Day of Mt. Willing first assistant, Miss Beth Arwood of New Brookton; second assistant, Miss Frances Hutchison of Enterprise; primary teacher, Miss Avis Graham of Troy.

The school had a nice Thanksgiving program Wednesday night. A large crowd attended.

The first basket ball game of the season was played with Eason on last Friday afternoon New Hope players were: Guards, Comer Griswold and J. W. Johnson; Forwards, O'Neal Griswold and Hubert Ziglar; Center, Theron Head. All of the players showed their spirit by the way they played. They made us feel proud of them, especially when the score keepers announced the game a victory for New Hope, 39 to 1. Our second team then played Eason and won 10 to 3. The players were: Forwards, Ruff Eagon and James Wilson; Guards, D. W. Griswold, Alvin Glover Shiver; Center, Huie Ziglar.

The group teachers' meeting of this section of the county was held at New Hope school building Saturday, November 20th. We enjoyed the day very much. We had demonstration lessons taught by Misses Frances Hutchison and Beth Arwood, and showed speeches by several of the teachers. Miss Farris gave many good suggestions and made us feel that we had many things to work for. A delicious lunch was served by the New Hope teachers.

Miss Jessie Eagon, Dr. Carter and Evelyn Taylor of Dothan were the visitors of Mr. and Mrs. J. T. Eagon (Thanksgiving). We are always glad to have Jessie home and to bring her friends with her.

Messrs Foster Ziglar, Ovis Bachelor and Ciska Carroll of Chestnut Grove, visited New Hope Sunday afternoon.

Misses Avis Granham, Frances Hutchison and Beth Arwood spent Thanksgiving at their home.

A new high production record for junior three-year-old Alabama Jersey cow has been established by Lookout Dorothea's Florine, owned by King Pharr, Catherine, Ala. This cow yielded, with calf, 619.83 lbs. of butterfat and 12446 lbs. of milk in a 365-day official production test. She won a Silver Medal and the State Championship.

Advertising Will Help Farmers Sell Produce

—O—

Auburn, Ala., Dec. 1.—With the biggest crop in several years of things to eat, thousands of Alabama farmers are now confronted with the problem of selling one or more miscellaneous products; and one of the best means for disposing of these products is by advertising in the local newspapers, say agricultural workers at Auburn.

It has been observed frequently that farmers have a surplus of products which fail to bring them satisfactory returns because nearby consumers are unaware that nearby farmers have them for sale. By advertising, a farmer lets consumers know what he has and frequently turns it into cash.

In addition to eggs, butter, vegetables, and similar products, farmers now have for sale dried peas, beans, fruit, canned goods, etc. Frequently a fraction of a dollar spent in inserting an advertisement in a local paper will result in sales when the product would not have been sold had no advertising been done.

The fact that the biggest and most successful business men in the country advertise liberally, spending hundreds of thousands of dollars yearly for this purpose, is conclusive evidence as to the value of advertising. It is part of successful selling and a big need of farmers now is to sell successfully. Advertising will help.

Before doing this advertising the Auburn workers point out that a farmer should be sure about the quality and pack wanted and should plan from the beginning to establish a permanent business. When he makes a contact he can turn it into a permanent customer by giving a high-quality product and satisfactory service just as successful merchants do.

PARENT-TEACHER ASSOCIATION ORGANIZED AT SARDIS SCHOOL.

On last Wednesday afternoon at 3:30 o'clock the parents of Sardis School met at the school building and enjoyed the following program:

1. Song—Can A Little Child Like Me.

2. The Mother of Thanksgiving.

3. Play—Why We Have Thanksgiving in November.

4. We Are Thankful.

5. Song—Thanksgiving.

6. I'm Thankful.

7. A Serious Handicap.

8. Play—Old Plymouth Days.

After the program, Mrs. Farris gave a lecture, which was enjoyed by all. She helped organize the P. T. A.

The following officers were elected:

President, Mrs. Mes. Foster Ziglar, Ovis Bachelor and Ciska Carroll of Chestnut Grove, visited New Hope Sunday afternoon.

Misses Avis Granham, Frances Hutchison and Beth Arwood spent Thanksgiving at their home.

Milk Gives Most Food Value At Least Cost

—O—

Milk gives more food value for less than any other food known to man, according to Herbert C. Hoos, secretary of the National Milk Producers' Association.

"Milk is the most nutritious of all foods," said Mr. Hoos. "It is the only food that contains all the nutrients necessary for the growth and maintenance of the body; they furnish energy for work, play and warmth."

"Milk helps repair the wear and tear of the body. It is a good as a meat for building muscle. Moreover, it is cheaper. A quart of milk will supply as much protein as several ounces of steak or four large eggs. Milk, particularly evaporated milk, which has the highest content of most nutrients, is one of the best and cheapest sources of food, and it is the only food that contains all the nutrients necessary for the growth and maintenance of the body; they furnish energy for work, play and warmth."

"Milk helps repair the wear and tear of the body. It is a good as a meat for building muscle. Moreover, it is cheaper. A quart of milk will supply as much protein as several ounces of steak or four large eggs. Milk, particularly evaporated milk, which has the highest content of most nutrients, is one of the best and cheapest sources of food, and it is the only food that contains all the nutrients necessary for the growth and maintenance of the body; they furnish energy for work, play and warmth."

Dr. Barson's Examination What Counts.

—O—

The "Penny Wise and Pound Foolish" individual always runs purchasing cheap inferior glasses. He is in reality "Penny Foolish."

Inferior glasses injure the sight, and this in turn injures the individual, whether bank president or street sweeper. He whose eyes are defective has his earning power reduced.

My glasses assure comfort, the normal earning power, at prices well within reason.

Dr. S. A. Barson

—OPTOMETRIST—

Will be in Elba Second Monday in each Month.

Will be in my office at Montgomery, 404-6 First National Bank Building, every Friday and Saturday.
